

Pupils work in groups to study Climate Change

Energy Topic:

The environmental issues surrounding wind farms versus nuclear power stations

Transportation Topic:

What will be the best way to transport people around in the future?
e.g. Compulsory car sharing, car free city centres, more and cheap public transport, bigger but fewer aeroplanes

Plants and Animals Topic:

The impact climate change is having upon plants, animals across the world.
e.g. melting Polar caps, reduction in rainforest and the lack of natural drinking water.

Home Topic:

How can we improve on our lifestyles in the home to become more eco-friendly?
eg. recycling, smarter household appliances, fewer trips to shops
